28 - Comments on Course Characteristics

Response Rate 6/7 (85.71%)

- The course was very challenging but taught really well. I've had to work harder in this class than in most of the other classes I've taken and it has challenged me in a lot of different ways. It definitely exposed me to financial world situations.
- BUSI 408's structure is conducive to the understanding of the foundation of finance because each chapter and concept easily builds on the other.
- Very relevant course to my interests in finance. I wish this course dealt more with small business!

29 - Comments on Instructor Characteristics

Response Rate 6/7 (85.71%)

- Foti was by far one of the best instructors I've had at UNC. He was very responsive to all my emails, was always available for office hours, and made sure I understood the material. He was always willing to help us understand the material and explained concepts really well. He made a very difficult class much more manageable and enjoyable to attend.
- Foti is a great instructor who is clearly passionate about teaching and making sure students understand not only the practical components of finance but the theory behind them. He is fair but still provides challenging questions and materials to test our understanding of topics. I am so glad he was my instructor for Corporate Finance.
- Fotis is a very easy-going, kind instructor. He clearly has a passion for finance, and he is a great teacher for a few reasons. Not only does Fotis always encourage his students to ask questions any time they do not understand something, he also provides various examples surrounding the concepts so that the students leave with their questions answered in its entirety. Although I am not a fan of finance in general, I thoroughly enjoyed having Fotis as an instructor because he has helped me understand financial concepts that I will need in the real world such as calculating interest rates, amortization, and the basics of investing in stocks and bonds.
- Foti is a fantastic instructor. He means very well for his students and loves to see them succeed. He's very open to explanation and helpful with his applied examples. I can firmly say Foti and I will keep in touch going forward.
